ATHERTON TRUSTEES CONSIDER ZONING

An Unrestricted Business District and a Residence Section Planned

At a meeting of the Board of Trustees of the town of Atherton, on Wednesday evening, the final report of the board establishing two zones, one to be known as the unrestricted business district and a residence district was read and the ordinance establishing the zones will be adopted, perhaps, at the next meeting. Hearings are now being held to give all an opportunity to be heard. The unrestricted zone where business places may be located is confined to a small territory in the Selby Tract on the highway where a few business houses are already located.

The trustees are starting out at night in establishing these zones. Atherton is essentially a residence town and should not be plastered all over with business enterprises. Trade places ought to be confined to a certain territory. Those planning new homes in this exclusive locality should have no fear that at some time a noisy garage would be placed at their back yard or that a Chinese wash-house would be erected alongside their pretty residence. In cities throughout the state are seeing these zones just for this purpose. It is the only way in which a community of attractive homes may be expected to be created. A protection to the home building. The trustees are to be commended for their good sense, and it is hoped they will have the co-operation of all the public spirited citizens of Atherton in their efforts to make Atherton a lasting city.

UNDERTAKING PARLORS UNDERGOING REPAIRS

The undertaking parlors of the Tinsley and Tinsley Undertaking Company on Broadway are receiving extensive repairs, and being put in shape again following the fire which destroyed the whole block buildings in which the parlors are located last Friday night. A large force of men has been at work during the whole week, and the work is nearly completed. The company is not out of business during the repairs, however, but is continuing to handle their trade at their establishment in Palo Alto.

RUNNYMEDE NEWS

The young people's committee of the Runnymede 49'er Club have their plans complete for the literary program this Saturday night. Their play, "Excuse Me," is a comedy full of surprise and affords an hour of real fun. A chorus of six of our Runnymede young ladies will be a part of the program, with one or two added numbers in addition to the play. An orchestra from Redwood City will furnish music for the dancing to follow the program. Refreshments of pumpkin pie, cake and coffee will be served. The auditorium will be decorated with the season's lowe'en and a good time is promised by the young people, who have been bending every effort to make this one of the best programs of the season. Tickets for adults and children are 25 cents and a full house is anticipated.

There will be a called meeting of the Women's Improvement Club Saturday evening, on the porch corridor of the school auditorium immediately following the literary program to take action regarding furnishing patients a room at the base hospital.

SEQUOIA HIGH NEWS

Much argument is meeting the issue of uniforms for the girls of Sequoia. Both teachers and students are active in their praise out of the qualities of navy blue serge middie and skirts. Mothers are also being consulted. The opposing side says it would deprive the girls of individuality in dress. Cleaning bills and the monotony of uniforms form the basis of their other arguments. Those who are for the change maintain that it would do away with washing and ironing, it would leave more time and money for more distinctive clothes for afternoon and evening wear and that uniforms would take the girls mind off their clothes. The outcome remains to be seen. It is hoped by many that the vote will be taken on the question soon.

WOODSIDE

Mr. and Mrs. Ludwig Von Savoye will close their home in Woodside on the first of the month to spend the winter in San Francisco.

Mrs. A. H. Angilford entertained with a Mah Jongg party on Thursday. Miss May Huddart gave a farewell dinner party on Thursday evening in honor of Mrs. Mahon, who is leaving for her home in Memphis.

Mrs. Fred Mighall spent two days of this week in San Francisco attending the convention of the Eastern Star.

Mr. A. A. Hosford, who runs the local bus between Woodside and Redwood City, was the victim in an automobile accident on Tuesday morning near the road crossing at Five Points. A reckless driver, taking the turn at a high rate of speed, not satisfied with crowding Mr. Hosford off the road, climbed half way over his car completely wrecking the bus. Fortunately no passengers were injured in either car, and as it is an ill wind that blows nobody good, the Woodside passengers now have a brand new bus.

A four horse team, leaving the premises of William Byrne early the other morning, took sudden fright and ran away. The driver was thrown to the bed of the wagon and as the team careened down the road, one of the wheel horses struck an oak tree in front of the Squires place. The team kept on for a hundred yards when the horse that had been struck dropped dead in the traces. It was found that his neck and shoulder had been broken by the impact.

All of Woodside is sad over the departure of Mrs. Mahon for her home in the East. Mrs. Mahon is the sister of the late Mrs. Louise St. John, who passed away last spring. Upon the death of her sister, Mrs. Mahon came to California to visit her daughter, Miss Louise Mahon of Palo Alto, and her brother-in-law, Rev. Benjamin St. John. While here Mrs. Mahon has endeared herself to all of us and we hope that she might remain with us for a long time to come.

Extensive changes and improvements are being made in the Wm. Roth place during the absence of the Roths in the East.

FIRE AT TANNERY

P. P. Chamberlain Celebrates Eighty-Third Birthday

The eighty-third birthday of P. P. Chamberlain, county treasurer of San Mateo County, was the occasion of a number of friends of that well known and popular official gathering at Tony's Cafe on Main street Thursday night in honor of the occasion. Those who were present at this celebration were, P. P. Chamberlain, John MacBain, Ed Stack, Dan Flynn, A. D. Walsh, John F. Johnston, Ole Johnson, Carl Muller, J. B. Perry, Asa Hull, Joe Dickey, Henry Steinberger, Henry W. Schaberg, Dr. J. L. Ross and T. P. Maloney.

One of the features of the evening was a regular old fashioned birthday cake with eighty-three candles burning upon it. The candles were blown out by the recipient of the party, who succeeded in extinguishing sixty of them at the first attempt.

P. P. Chamberlain is the oldest public official in point of service in the United States, so far as we know, having a continuous record of forty years in the position he now holds. He also has a record of many years of service in the offices of the local lodges, having been in office in the Masons for over forty years, and in the Odd Fellows for, nearly as long. Mr. Chamberlain is also a veteran of the Civil war, and did good service for his country at that time. Altogether, a truly wonderful record of service in many lines of endeavor.

GRADE CROSSINGS

The California State Automobile Association at its meeting in San Francisco last Saturday pledged itself to work for the elimination of dangerous grade crossings on State highways.

We hope that the Association will accomplish its purpose in this regard. We would like to suggest that they begin their activities right here in Redwood City. We want to see some sort of a tunnel for pedestrian traffic at the intersection of Broadway and the State Highway.

The completion of the new High School in December will make such an adjunct to safety a very desirable thing. The new gasoline tax will give a sum of money that will allow for wonderful development in road construction and upkeep. Let's ask that our share shall be spent in providing a safe means of crossing the most-dangerous corner in Redwood City.

WELCH FOR SUPERVISOR

The people of the peninsula are very much interested in the candidacy of Richard J. Welch, who seeks re-election as supervisor of San Francisco. During his incumbency of that office, he has shown by his acts that he is favorable to the best interests of the peninsula and has been foremost in promoting the construction of the Skyline boulevard, the Bay Shore highway and the Dumbarton bridge, and in advocating the industrial betterment of this region. The interests of the peninsula as a whole require us to express our commendation with the public record of Supervisor Welch. Our friends in San Francisco and the commuters who vote in the city are importuned and requested to do their utmost to secure his re-election. His return to the board means much to San Mateo County. Its development depends a great deal on San Francisco, and with an active man like Mr. Welch on the board of supervisors, much may be gained for the peninsula. He ought to be returned with an overwhelming vote.

AN EYE FOR AN EYE

There are all together too many murders and robberies now-a-days. We don't know that they can be stopped, but we do feel that the sentences for aggravated cases should be more severe than they are. We do not urge hanging or any other form of capital punishment. That sort of thing is over too soon. We believe that every day of his life the perpetrator of a shocking, premeditated crime should be forced to work out his reparation at hard, grueling work and forced to remember his deeds. We would have a law that would preclude the possibility of pardon.

Where a man deliberately kills another and burns his body in a haystack for the purpose of having his estate collect insurance; where a man is killed and the meat boiled from his bones; there should be a continuing punishment day after day and month after month for years with hard labor thrown in for good measure.

We would have the punishment fit the intent of the crime.

MAKING THE ROADS SAFE

The action of the State Motor Vehicle Department in its efforts to make highway travel safe is truly to be commended. Last week a number of bus drivers were arrested for various infractions of the law. The drivers will receive punishment and will be a little more careful for a while. But they are not the ones who should be punished—it is the schedule makers who should be in court. Most of the drivers are very careful in their operation of the vehicles, which are entrusted to their care. But they have a schedule to maintain, and if they are late too often, they will lose their jobs. Hence they take chances which frighten the other users of the highways. The drivers know that they are all right and won't hurt anyone. The drivers of the cars they just skim past are not so sure of the matter and are often threatened with nervous prostration.

The whole thing comes back to the old conclusion that common carriers and trucks that use the highways in competition with railroads should be required to acquire and maintain their own rights of way.

AN EFFICIENT DEPARTMENT

Last Friday evening we were not sure that we would be able to send out our paper to our subscribers. The building next door caught fire just as we were ready to go to press. The buildings in this section of town are close together and are of a material that made the possibility of a big fire a thing to be dreaded.

An alarm was sent in and in an incredible short time the fire department was at work. The members took chances that we should not like to take. They clambered over roofs and climbed up walls and chopped through partitions until they located and quenched the flames. They did a good job. They saved our neighbor's property and made ours safe. We wish to thank the men who give their service to fight the fire fiend. They are public benefactors.

BUY AND BUILD FOR BUSINESS

The United States is spending about \$23,000,000 in rentals every year. Uncle Sam might profitably consider the popular saying, "Own your own home." A ten-year public building plan is being contemplated by congressional leaders.

HOPELESS TASK

If Europe didn't learn enough to let war alone during the late World War, how can Uncle Sam expect to teach her anything?

LETTER BURNED IN TRAIN HOLD-UP

A letter was received by Henry Steinburger for the Frank Tanning Company this week from Vancouver, B. C., burned on one side and stained with water. The letter was enclosed in a government post-office envelope, and enclosed with it was a slip saying that the letter was burned by fire and dynamite in the wreck of the Southern Pacific train at Siskiyou on October 11.

THE KILLING OF DOES CAUSING DEATH OF FAWNS

Much indignation is being expressed locally by the number of dead fawns being found in the hills near here, dead it is supposed, from the unlawful killing of does by lawless hunters. Several instances of fawns, starved to death by the loss of their mothers have put the authorities on the alert for those who for cruel and selfish pleasure would violate the laws formulated for the protection of the wild animals of our hills.

HAROLD ANDERSON GRANTED DIVORCE

Harold Anderson of this city was this week granted a divorce from his wife Fala Anderson, in the Superior Court of San Francisco County by Superior Judge E. P. Morgan. Anderson secured his divorce on a cross complaint filed when his wife sued for divorce. In his complaint Anderson charged cruelty, and named Paul Raef, an Oakland man, a correspondent in the case. Letters written by the Oakland man to his wife were introduced in court. In granting the divorce, Judge Morgan censured Mrs. Anderson severely for introducing evidence which was found to be perjured.

Cleaning Without Odor
by the
F. THOMAS PROCESS

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly \$500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes.

How you Profit

HYDRO-ELECTRIC power, developed, is more abundant and cheaper in California than in any other state.

That fortunate condition has been brought about chiefly by public utility companies under California's effective system of regulation. True, California has certain natural advantages, but they were developed by the initiative, foresight, and courage of California Companies.

La Honda Organize Improvement Club
A number of residents of La Honda gathered in Sear's Hall, La Honda, on the evening of October 20th and organized a community improvement club, which will be known as the La Honda Improvement Club. This club has for its purpose the advancement of the community along both social and business lines. Representatives of the various lines of community activity were present, summer resort owners, store keepers, realtors and farmers joining hands for the progress of their home town. Several matters of immediate importance were discussed while other matters of lesser importance were held over until a future meeting. The main question discussed was that of securing electric light and power for the district. The offer of the Pacific Gas & Electric Company was gone over carefully and finally referred to a committee for further consideration. This committee is composed of W. W. Bantley, chairman, A. T. Woodhams, Frank Guerra, with the club president and secretary as ex-officio members. This committee will make a thorough canvass of the district to ascertain the exact amount of power that will be needed and will confer with the electric company officials after the necessary data has been obtained. Mr. J. P. Yost, forest ranger, working under M. B. Pratt, state forester, was present and gave an interesting talk on the organization of fire protection districts. A committee consisting of Geo. Stinberg, fire-warden; August Zanolli and Frank Cavalli were instructed to go into the matter and report to the club at its next meeting. Mrs. Hatter of Big Tree Inn, Mrs. Bonzagni of Bonzagni's Lodge, and Morris Woodhams of Bartley & Woodhams were instructed with the work of drawing up a club constitution. Geo. W. Fry of the Redwoods Ayrshire Farm was elected temporary chairman with Morris Woodhams as secretary. In the absence of Mr. Woodhams, Mr. Bartley acted as secretary. The next meeting of the La Honda Improvement Club will be held at Sear's Hall on the 27th of October. The meeting will be called to order at 8 p. m. and all residents and property owners of the district are requested to be present in person. Besides the fire and lighting questions, the matter of community entertaining will be taken up.

And the warmth of Pearl Oil is good to come back to! Turn it up to full flame—heat? A roomful in no time! No oily smell with Pearl Oil—but a clear, steady flame that warms you through and through. Soon as the room's warm enough—turn the wick down as low as you like. Pearl Oil will burn brightly on all day long with no fuss, muss or one drop wasted. To insure best results, use only Pearl Oil—the clean-burning, uniform kerosene—refined and re-refined by the Standard Oil Company's special process. HEARD AT THE FIREMAN'S BALL
Among the numerous loving couples who attended the Fireman's ball was one pair who had "eyes" only for one another. During a lull in the music, the girl was overheard as follows: "Gee, Bill, ain't Love just GRAND?"
Too many employers have the idea that virtue is its own reward.

SEEN GREAT CHANGES IN TOWN IN 11 YEARS
Mrs. J. W. Eads of Los Angeles, formerly Mrs. Fred Becker of Redwood City, and her daughter, Miss Lorane B. Becker, were visitors in Redwood City this week after an absence of eleven years. Mrs. Eads was much surprised at the way Redwood City has grown, and expressed the hope that she might return to make her home here again. The visitor from the south asked concerning her friends in Redwood, and remembered her old friend Mrs. Kierse with a donation for the Catholic fair.

"We're really saving money with Ice"
Friend Husband will very quickly approve the policy of keeping ice in the house all the year around after he once learns the real economy of this plan. Ice will really pay for itself in the food it saves, and in addition, it keeps your food in a pure, wholesome condition that is not possible without ice. Scientists will tell you that all perishable food begins to deteriorate rapidly when the thermometer reaches 50 degrees, or warmer, and during the Fall the thermometer is often above 50 degrees. It's both prudence and economy to keep your refrigerator well filled with ice all the time.

NEWS OF MENLO PARK

Tax bills began to arrive this week from Redwood City to property owners here. Taxes are about a third higher than last year. Wow, how the circumstantial air is surcharged with the tax burden. If there were an election for county officers next month, all the incumbents would be defeated. They have nothing to do with fixing the tax rate, but the thoroughly maddened tax payer would get his revenge by defeating them. Now Mr. Taxpayer let us have a heart to heart talk and ascertain where your money goes that is collected in taxes. Remember you are not living in a fool's paradise, but in a veritable garden of Eden. Last summer after your day's toil, you sat on your front porch reading your paper, not bothered by the pesky mosquito because you are a part of a mosquito abatement district. Joseph Dickey, the superintendent, with a crew of men destroys the breeding places of the insect by pouring oil on stagnant pools, swamps and drainage leaks during the spring months. This takes money and lots of it, but it adds to your comfort. When Sunday comes, you go out in your automobile to enjoy a spin on the thoroughfares as smooth as glass, radiating in all directions over hill and down dale. The upkeep of these roads means a large outlay of money, particularly now when wages and materials are air-planning. You want them and you must pay the piper. You have nicely lighted streets that take money to keep in operation. There has been no epidemic of sickness here. All have enjoyed perfect health because Menlo Park has a splendid sanitary system, which takes some money to run. There is the social service at Redwood City looked after by Miss Florence Boggs, ably assisted by Miss McCormick. Most any time you pass her office in the courthouse, you will find the poor and unfortunate there seeking aid. Often you may see a poor mother with a baby in her arms and two or three other small children tugging at her dress. The father may have died or deserted the family. She is left alone and seeks Miss Boggs to get milk for the little ones and clothes for the other children. This is almost a daily occurrence. Thousands of dollars of the taxpayers money goes to this worthy cause. You wouldn't have this good work discontinued, would you, Mr. Taxpayer? Of course not. At a cost of over \$300,000 a modern hospital has been erected at Beresford to take care of the unfortunate. Special wards have been constructed for the care of tubercular cases and other contagious diseases. A farm is maintained in one of the most attractive spots in the county for the aged so that their last days may be spent in peace and plenty. All this is costly, but who is there who would begrudge this to the unfortunate? The poor we have always with us, and they must be cared for. Did it ever occur to you, Mr. Taxpayer, that sixty per cent of the taxes collected in the county go to maintain the schools? That is correct, that big sum goes to keep up one of the best school systems in the state, in charge of Roy W. Cloud, a very efficient and able superintendent. The trustees of the Sequoia Union High School at Redwood City are spending nearly a half million dollars for a school building and grounds. Here every convenience will be provided for the pupils, both for their mental and physical development. Swimming pools, a cafeteria, ball grounds, racing tracks and attractive grounds. The pupils will be given the best so that superior men and women will be graduated from the institution that will reflect credit on the liberality of the taxpayer. Soft cushioned seats in high powered buses will convey pupils from and to the school at Menlo Park, at no cost to the parents and those unable to take the bus, their fare will be paid on the trains. Books and all stationery are provided free by the district, all done for the benefit of education. Our fathers were satisfied with the "little red school house," but the man of today demands better educational facilities. So there is where your money goes. Who would change conditions? There may be some small leaks and minor extravagance in conducting the business of the county, but it is a big affair, and cannot be carried on with the same economical degree in which a private enterprise is managed. As a whole, the business of the county is administered on an economical basis by an able and efficient set of county officers, who honestly do their duty. Of course, every community has its cynics, fault-finders and pessimists and this community has them. After all the payment of taxes, is the meeting of obligations imposed on every one. The money is expended for a good purpose. The obligation should be met cheerfully. Mr. Taxpayer, if you perform your duty in this respect you will have no regret. When you approach the Valley of the Shadows, you may look backward, conscious that you have done your duty without a grumble, and as you enter the portals of that undiscovered country you will feel better for having lived.

Miss Edith A. Carleton, the pretty daughter of Mr. and Mrs. A. J. Carleton, was united in marriage at San Jose, in St. Patrick's church, to B. B. Buckhout of Palo Alto. Father O'Connor officiated. Grant O'Leary acted as best man, while Miss Grace Carleton, the charming sister of the bride, was maid-of-honor. After the impressive ceremony, the bridal party enjoyed a dinner at St. James hotel. On their return from the honeymoon to be spent in the south, Mr. and Mrs. Buckhout will reside at their pretty new home on Homer

avenue, Palo Alto. Thus will Menlo Park lose one of its charming young ladies. Mr. Buckhout is employed by the Standard Oil Company.

The trustees of the town of Atherton held an important meeting last Wednesday evening. There was a large number of citizens of the young town present. The report of the zoning committee was read. J. B. Corbett and Mr. Shearer were among those who protested and objected to the passage of the zoning ordinance that is soon to be adopted by the board. The proposed ordinance divides the district into two zones, a residence district and a unrestricted district, confining all business to a small territory on the highway in the Selby Tract, where a few business houses now are located. The wealthy homes will not be invaded by business enterprises of any kind. This is absolutely correct and just as it should be. All business should be confined to one locality and not spread over all the district. City Attorney Redding presented several ordinances that were adopted. One was the fixing of a meeting place in the Corbett garage the first and third Wednesday evenings of every month. One builder's permit was granted by the board. An ordinance was passed compelling all those making excavations to place a light on such excavations. A chief of police officer will be appointed at the next meeting of the board.

The feature of the exercises in laying the bronze tablet here by the American Legion last Friday, was the eloquent speech delivered by Senator M. Shortridge. The Senator

was never so eloquent as on this occasion. He spoke fluently of the deeds of the overseas soldier, what he did for the flag and the heroism he displayed on many a bloody battlefield. The Senator referred in eloquent terms to the appropriateness of laying the tablet to mark the place where the eighth division was trained. The spot is historic and hallowed by the tears of the mothers who during the war visited their brave boys at Camp Fremont.

Mr. W. Brooks, who maintains a beautiful residence in Menlo Oaks, will open his city residence on the first of the month. Mr. Brooks is a prominent broker with offices in the Commercial Union building on Montgomery street.

Mr. J. Shepherd of Redwood City has purchased one of the Mason cottages on Oak Grove avenue.

The property of W. O. Horabala near the post office building at Palo Alto has been sold to a syndicate that is going to erect a three story hotel at once. The tourist hotel to be erected near the Stanford campus is also to be built very soon. It is to be conducted by Mr. Leonard, the well known hotel man of San Francisco and Los Angeles.

Fred Smith, a former game man here, has opened a workingman's store on Emerson street, Palo Alto. Mr. Smith invites all his Menlo friends to visit him and secure bargains.

Menlo Park is to have another palatial home. Announcement has been made that Mr. and Mrs. Howard Park will, during the coming months, have constructed a large home on their beautiful local property. They are now working on plans for the home, which will be most elaborate and one of the largest here. Mr. and Mrs. Park have been in San Francisco for some time, but will return to their home in Burlingame November 1. The Burlingame house has been rented by them for the past year and a half to Mr. and Mrs. Roger Boqueraz.
